- I. The bidding will be conducted in Indian Rupees (INR) only.
- II. The bid(s) will trigger off from the base prices and is the same as upset price of respective land + (Plus) one incremental value.
- III. **Incremental Value:** Incremental Value for this auction is Rs.20,000/- (Rupees twenty thousand) only for all plots. Minimum Bid increment shall be available to the Bidders at the start of the auction. The bidder can bid higher than the Highest Bid (H1 Price) at any point of time in the auction by multiples of the minimum Bid increment. The minimum incremental value will be displayed against each property on the bidding screen of all participating bidders. The software will not accept any bid other than the multiple of incremental value.
- IV. **H1 Price:** It is the highest value placed (for each plot) in the bid at any point of time during the auction for the property. It will be visible to all the bidders on the screen and the bidders can bid an amount of “H1 price + (plus) incremental value or in multiples of incremental value” only.

V. Auto Auction extension of the Closing time.

- (a) Auto Extension:** if any bidder submits the bid less than 5 minutes prior to Auction closing time, the system will automatically extend the auction closing time by 10 minutes.

For Example: If the auction is closing at 17:00 Hrs and if any bidder bids between 16:55 and 17:00 , the auto auction extension will extend the auction closing time to 17:10 and if any bidder bids between 17:05 and 17:10, it will be extended to 17:20 and so on.

- (b) Unlimited Auto auction extension:** As indicated above, if the bidder bids within the last 5 minutes of the auction closing time, the Auto Auction

extension will continue to extend the Auction time till no bid is received within the last 5 minutes of the auction closing time.

- VI. **Auto Bid:** The Auto Bid feature allows Bidders to place an Automated Maximum Bid in an auction and bid without having to enter a new amount each time a competing Bidder submits a higher offer. Bidders are supposed to quote their next highest price in confirmation to the incremental value and in multiples of thereof only. There is no restriction on changing of the Auto Max Bid/value. But once Auto Max Bid/value is clicked and freezed, the same cannot be withdrawn at any point of time during the auction period. However, if the auction is cancelled and new auction dates are announced, the earlier Auto Max Bid/value shall have no relevance. After fixing his highest limit, the manual Bid button will be disabled. The system will automatically bid on his behalf, based on the auction's H1 price. His bidding dashboard will show his Rank, the H1 price and the highest bid ongoing in the auction. Until his auto-bid amount is not reached (in the H1 price Box) for a particular property in the e-auction, the manual Bid button on his screen will remain disabled. Once his auto bid amount reaches or crosses the Auto Max Bid/value amount, then he will have to bid manually otherwise the bidder may opt for auto bid again by setting a new maximum bid amount.
- VII. **Max multiples of increment value allowed per bid:** bidder can quote the next H1 price up to current H1 price + (plus) the maximum allowed multiple of incremental value.
- For these auction Max Multiples of increment value allowed is 10 Times of the incremental value.**
- E.g.: upset price=38,00,000/, increment value 20,000, max multiple of increment allowed =10 times i.e. Rs.2,00,000/-
- If Current H1 value = 38,00,000 maximum next bid can be = 40,00,000 i.e. 38,00,000 (current H1) +20,000(increment value) x 10(max multiple of increment))
- VIII. **Successful Bidder:** At the end of the Forward Auction, OSHB will decide upon the winner based on the highest bid placed for the plot under e-Auction and subsequent acceptance of OSHB. The decision of "OSHB" will be final & binding on all the bidders.
- In the event of one bidder quoting the highest bid for more than one plot and becoming the H1 bidder for two or more plots at the closure of the auction, he will be the successful bidder for only one plot for which he has quoted the higher amount than the other bids. In case of other plots of which the highest bid stood cancelled for the afore mentioned reason, the second highest bidder shall be the successful bidder. But however, in case the second highest bidder also become a successful bidder of other plot in the same auction then the third bidder quoting highest value would be the successful bidder. This principle of selection will continue in the manner as aforesaid till all plots are allotted to the successful bidder selected through auction or the bids are exhausted.
 - However, the decision for acceptance of bid in respect of a particular plot will lie with the OSHB in the above cases where there is significant

difference between the H1 bid value and that of the bid value of selected bidder.

- IX. Subject to conditions and stipulations in the brochure, it is made clear that no successful bidder shall avail more than one plot, put into auction. *This process will be followed to ensure that one plot is allotted to one applicant/bidder based on his/her highest bid and multiple allotments will not be made under any circumstances.*
